ABOUT THE COMPANY

Heliant d.o.o. is a Software company that develops specialised software solutions and provides consulting services in the field of information and communication technologies. Heliant was founded in Belgrade in 2013 by a group of experts with many years of experience working on projects of developing specialised software solutions for clients from the country and abroad.

Customer satisfaction is a measure of our success, with the application of the best working methodologies and the building of long-term partnerships, it forms the basis of our business philosophy. Currently, we have 90 dedicated, team-based associates, who contribute to the development of recognisable quality and better practices of business on a daily basis.

Today we are competitive and recognisable on the market because we offer stable solutions of consistent quality. We believe that the basis of good cooperation is communication, and in that sense, we strive to integrate users into every step of development, creating innovative solutions with the imperative of ease of use, regardless of the complexity of the business process.

Our best recommendation is 40,000 end users from the public and private sector, whose daily operations are simpler and more efficient, thanks to our software solutions. Thanks to the large number of successfully implemented projects, professional staff and recognisable quality, today we are recognised as a reliable partner in the market of specialised solutions in the field of ICT technologies.

The basis of every success is the knowledge of the people who build it.

Our team consists of experienced experts who have successfully implemented a great number of projects and who have significant results in the field of development of new business practices.

We believe that investing in personal and professional development of employees, engaging of capable and motivated people is the key to accomplishment of our business goals. The practice of engaging of young professionals is particularly important for us.
